

Junior Associate, DevOps – Copenhagen

We are looking for an ambitious student with an interest in programming and Finance. The role sits within the DevOps team, which is a technical team supporting the rest of the organization.

The DevOps team is responsible for implementing, maintaining, and configuring core systems, building system integrations, and organizing data. The team works in 2-week sprints with an agile approach and a high degree of diversity of tasks.

Job Description

- **Collaborate & Deliver:** Work alongside a team of seasoned IT professionals to deliver diverse, impactful solutions across SQL Server, Python, Azure, Power Automate, Power BI, and AI-driven automation.
- **System Development:** Contribute directly to system implementation and development initiatives that optimize and support core business processes.
- **Flexible Execution:** Work seamlessly both independently and in collaboration with DevOps team members.
- **DevOps Growth:** Grow into a DevOps champion within the organization, learning to support various teams and handle ad-hoc technical requests.
- **Hours & Flexibility:** This is a part-time position (15 hours per week) featuring high flexibility to accommodate your university schedule and exam periods.

About You

- **Analytical Mindset:** You possess sharp analytical skills, a keen eye for detail, and a natural, solution-oriented approach to problem-solving.
- **Strong Communicator:** You have excellent communication skills and are eager to actively engage with business stakeholders to understand their needs.
- **Proactive & Curious:** You are naturally curious, ready to take on responsibility, and comfortable working both autonomously and as a collaborative team player.
- **Educational Background:** You are currently pursuing a relevant degree (IT, Science, Engineering, or Business/Finance with an IT focus), preferably with 2–3 years remaining in your studies.
- **Coding Foundations:** You have hands-on experience (from work, university, or personal projects) with at least one object-oriented programming language.
- **Language Skills:** High proficiency in both written and spoken English is required.

We offer you

As Junior Associate, you will work in a dynamic, international and inclusive environment. The role will give you the opportunity to be part of a successful team with highly motivated, competent and supportive colleagues and have a challenging and rewarding part-time job with a high degree of responsibility and learning opportunity. Capital Four is an engaging and active social environment where students are encouraged to participate in our yearly offsite and various Capital Four sponsored events such as sports and organized after-work social events.

About us
