

Junior Associate – Quant Research

We are looking for 2-4 motivated and detail-oriented students to join our Quantitative Research teams. You will gain hands-on experience with modelling, financial data, analytics, and the operational processes that support our investment decisions.

Job description

- Monitor and maintain computational investment signals and key data flows
- Assist with recurring fundamental data quality checks as well as data analytics
- Assist with developing, updating and troubleshooting Power BI reports and Excel Model Books used by analysts and portfolio managers
- Support process improvements, documentation and internal workflow optimization
- Collaborate with analysts, PMs, ESG, and DevOps on data quality, mappings, and system-related issues

About you

- Studying economics, finance, mathematics, engineering, data science or equivalent with 1.5+ years remaining
- Able to work 15-20 hours/week
- Familiar with SQL/Power BI/Excel OR SQL/Python
- Detail-oriented, structured, and proactive, with a problem-solving mindset
- Interested in financial markets, quantitative modelling, investment data, or improving analytical workflows
- Optional but beneficial: Power Automate, SharePoint and API

We offer you

As a Junior Associate, you will work in a dynamic, international, and inclusive environment. The role will give you the opportunity to be part of a successful team with highly motivated, competent, and supportive colleagues and have a challenging and rewarding part-time job with a high degree of responsibility and learning opportunity. Capital Four has an engaging and active social environment where students are encouraged to participate in our yearly offsite and various Capital Four sponsored events such as sports and organized after-work social events.
